

SLAYER®

Single Group

The dream machine. Whether it's the cornerstone of your cafe or the prize jewel in your kitchen, the Slayer Espresso Single Group is unmatched in design and innovative technologies.

Fully equipped with patented needle-valve technology for ultimate flow rate control, an independent brew tank for impeccable temperature stability, a commercial group head, and an individual tank for unlimited steam capacity. Steam and pull shots simultaneously and continuously without pressure drops or temperature loss. You'll have all the necessary tools to extract the best flavors from each coffee over and over again. This machine was built for commercial use, but fits right in at home, too.

Flavor Profiling

Manual operation of 3-position actuator allows total control.

Patented Needle Valve

Meter the introduction of water to the coffee bed for ultimate sweetness and syrupy body.

Pre-heat Coil

Stabilizes brew tank temperature.

Individual Brew & Steam Tanks

Pull a shot and steam milk simultaneously.

Touchscreen Menu

Modern, digital LCD screen for brewing and programming.

Custom Options

Personalize with distinct body panel colors, metal finishes and wood sets (actuators, handles and cuprails).

Power Saver Schedule

Automatically powers on and off.

Shot Mirror

Improves visibility during extraction.

Essential Features

- Patented needle valve for restricted flow rate aka Pre Brew
- Independent brew and steam tanks
- PID temperature control, adjustable in 0.1° increments
- SSR circuit board for added efficiency and temperature stability
- Electronic V3 grouphead rated to 1 million cycles
- Commercial brew group assembly and portafilter with 58mm, 18-gram basket
- Nanotech-coated precision shower screens
- Handcrafted with wood handles and actuators
- Internal rotary vane pump
- Lifetime/resettable shot counter
- Power switch for easy on/off
- Shot mirror
- Hot water tap

Specifications

- **Width:** 18.5 inches / 47 centimeters
- **Length:** 23 inches / 58 centimeters
- **Height:** 13 inches / 33 centimeters
- **Weight:** 110 pounds / 50 kilograms (tanks filled)
- **Brew tank:** 1.1 liters, 600 watts
- **Pre-heat coil:** 60 milliliters
- **Steam tank:** 3.3 liters,
- **Single-phase power:**
120 VAC, 50/60 Hz, 1.6kW
220—240 VAC, 50/60 Hz, 2.1—2.4kW
